

Industrial Standard U-Tube Steam to Liquid Heat Exchangers

When Schedule Counts

- Stainless steel construction for better corrosion resistance
- Economical way to upgrade utility exchangers
- Suitable for most non-product applications
- Many sizes are in stock for faster delivery
- High quality construction with a non-sanitary finish

- Enerquip can assist you with Sizing & Selection
- Non-removable U-tube bundle and threaded FNPT connections help keep costs lower for these units
- U-tube style allows tubes to expand and contract freely
- Each unit is ASME pressure tested & Code stamped
- Exchangers are designed & rated for 150 psig at 375F

Options Available:

- Insulation & cladding with Stainless jacket
- Mounting Foot Supports – horizontal or vertical
- Baffle & connection changes for liquid to liquid applications
- Also available in 316Lss, Duplex, AL6XN, Hastelloy & other alloys
- Available upgrade with removable tube bundle
