WHO IS S. HOWES, INC.?

S. Howes was founded in 1856 and has established itself as a reputable designer and fabricator of industrial bulk handling process systems for various industries. Systems include conveying, material mixers, size reduction and classifying equipment. Our customers include Fortune 100 Corporations across the globe.

S. Howes is part of MetalWorks, a group of affiliated manufacturing companies under common ownership in Western New York. In addition to S.Howes/Howes Filtration, affiliated companies include:

- Goergen-Mackwirth Co., Inc- custom metal fabrication
- West Metal Works, Inc.- pressure vessel, complex custom fabrications
- Metal Locking Service, Inc.- repair and refurbishment of industrial cast iron components

Each of the companies specializes in different metal working areas but all focus on quality workmanship. Metalworks employs 130 individuals all committed to superior customer service. Total annual revenue for all companies exceeds \$20 million.

WHO IS HOWES FILTRATION?

Following the closure and liquidation of the former FSD/Duriron in 2002, several key employees of FSD/Duriron joined S.Howes. These employees formed the organizational nucleus for the new Howes Filtration division by providing sales, laboratory, engineering and manufacturing expertise.

Equipment and systems include Tube Filters and Pressure Leaf Filters – for new systems and aftermarket applications. Important to note, Howes Filtration systems and components are similar to the products previously designed and fabricated by the former Filtration and Separation Dynamics (FSD) and Durco® product lines. As a point of information, Durco® is a trademark of Flowserve, a pump manufacturer in Dayton, OH.

FREQUENTLY ASKED QUESTIONS ABOUT HOWES FILTRATION:

Can Howes Filtration supply new pressure leaf filters?

Yes. The company has invested several years in the design and engineering of horizontal and vertical pressure leaf filters. Howes Filtration vessels are ASME certified and fabricated in house at our facilities in Silver Creek, NY.

Can Howes Filtration supply replacement parts on existing systems?

With numerous filtration parts already in stock, Howes Filtration is prepared to meet quick turnaround lead times. Most filter components are built in-house under strict quality procedures.
